

SHEEHAN HOLDS TO HIS STAND

NO REASON HE SHOULD NOT SEEK MURPHY'S HELP.

The others did, and he got it. And having the same with him. He himself, Tammy's candidate. Answer to Talk About Corporate Influence.

Mr. Sheehan in a letter to Dr. Edward D. Mann of Buffalo, which is being public today, replied to various comments against his fitness for the State Senatorship.

Mr. Sheehan says that since Judge Mann and Gov. Dix were elected under Mr. Murphy's leadership there was no reason why he, in common with Sheehan and the other candidates for the Senate, should seek Mr. Murphy's assistance.

Mr. Sheehan says the suggestion that a Senator he would serve "the interests" is insulting. As a corporation lawyer, he adds, he has had only two clients—small electric railways which do an interstate business.

Here is Mr. Sheehan's letter: MY DEAR DR. MANN: I did not know of Mr. Sheehan's letter to you until she handed me your reply.

A true understanding of the facts will clear the situation, I am sure. The total Democratic representation in the Senate and Assembly of New York State is 115, and it therefore requires 58 votes to nominate a candidate in the caucus if all Democrats participate.

While it is true that neither I nor any other candidate could have been nominated by the caucus at the vote of the Democratic members from New York City, it is equally true that I would have failed to receive the caucus nomination without the support given me by the up-State representatives.

To be perfectly frank with you, when I finally decided to become a candidate, which was long after the election, I for the first time sought the assistance of Mr. Murphy by a personal interview and with the same object in view as any other candidate.

There is every reason why I should have sought Mr. Murphy's assistance in the contest. Under his leadership Judge Gaynor was made Mayor of New York City, under his leadership John A. Dix was elected Governor of the State and we have a Democratic Legislature for the first time in seven years.

When the Democratic leader of Kings county declared in favor of Mr. Sheehan's candidacy the only criticism of his declaration was that it should have been followed by the majority of the caucus members, binding them as a unit to vote for Mr. Sheehan in the legislative caucus.

When the Democratic leader of Kings county declared in favor of Mr. Sheehan's candidacy the only criticism of his declaration was that it should have been followed by the majority of the caucus members, binding them as a unit to vote for Mr. Sheehan in the legislative caucus.

COST OF INDEPENDENT SUBWAY

LESS THAN THE INTERBOROUGH COMPANY'S, ENGINEERS SAY.

Mitchell and Prendergast Think the Interborough Route Would Cost From 105 to 120 Millions. City Experts Have Figured a Still Lower Price for It.

Comptroller Prendergast and President Mitchell of the Board of Aldermen, who are fighting the Interborough subway plan, have written to the Public Service Commission pointing out that the cost of the independent line would be much less than the Interborough company's figures say.

The construction cost of the entire system, including Bronx extensions to Pelham Bay Park and Woodlawn Cemetery, a complete Broadway-Lexington avenue trunk line, an East River tunnel through Liberty and Pineapple streets, the complete Broadway-Lafayette avenue loop and complete extensions of the Fourth avenue subway to Fort Hamilton and Coney Island would amount to \$107,365,000.

From the city engineers' make the following additional allowances: Engineering at 3 per cent, \$4,878,000; extras at 7 per cent, \$7,031,000; interest during construction at 10 per cent, \$2,750,000; a total construction cost of \$119,516,000.

These engineers inform us that this estimate is also predicated upon the assumption that the level of the proposed Interborough subway shall be that indicated in the present plans of your commission. They further inform us that if the strictest economies were to be practiced both in the planning of the subway and in the construction of it, the cost could be reduced to \$100,000,000.

As to the independent vote, I may not be able to speak with the authority of some of my critics, but I know there are many men who are known as independents who resent the suggestion that I would not worthily and in a becoming manner represent all our people. Nor do I believe that the intelligent independent voter is more concerned about individual office holders than he is about public policies.

While I am on the subject, pardon me for adding another word germane to your interesting letter. It is said by some that I go to the United States Senate it will be to represent the so-called "interests" of the State. I would like to see the man who would begin to serve the interests of the State the first time that I rendered such service.

It is true that I have represented and do now represent as counsel certain corporations, but no corporation with which I have been known as an independent has done an interstate commerce business, with the single exception of two small electric railroad companies running from New York State into Pennsylvania.

I have never objected to open and manly discussion of the merits of the man who has most recently dealt with me, sometimes far more than the man who agrees with me. But you who know me so well must not realize that while some of the opposition is based upon conviction the larger part of it is manufactured and self-serving.

You have overlooked the great, incontrovertible fact that the Democratic Senators and Assemblymen from Greater New York represent 40 votes and the total Democratic representation in the State is 115. Even if I am not elected whoever is chosen must owe his election to this New York City majority.

Presently I am not a candidate for the State Senate, but I am a candidate for the State Assembly. I am a candidate for the State Assembly. I am a candidate for the State Assembly.

Presently I am not a candidate for the State Senate, but I am a candidate for the State Assembly. I am a candidate for the State Assembly. I am a candidate for the State Assembly.

The dawn of right heating

In the years 1902-1903 we labored earnestly with one of Chicago's largest builders to try 3 of our heating outfits in 50 houses he was then building. We wanted to see whether the 3 houses would sell or rent quicker than the other 47 houses at the little higher price asked to cover the cost of

AMERICAN & IDEAL RADIATORS & BOILERS

It was an experiment—no sentiment in it—just catering to the public to get their approval. Since that time this builder has put 260 outfits of IDEAL Boilers and AMERICAN Radiators in his new houses and for four years past every house he has built has been exclusively equipped with these now world-famous outfits.

Not a single buyer of any of those houses has changed from our way of heating back to the old-fashioned methods, but many who bought houses originally fitted with old-fashioned heating have since put in IDEAL Boilers and AMERICAN Radiators.

Do not such facts convince you of the great comfort, economy, convenience, cleanliness, quicker salability and rentability of property outfitted with IDEAL Boilers and AMERICAN Radiators.

We will gladly give you the name of the builder on application, or will furnish you with addresses of large builders in other cities who have likewise proved that IDEAL Boilers and AMERICAN Radiators are the greatest feature of any building, for they are the one feature of a building, which, because of the cost of running, bring about a saving—repay their original cost several times over—

prove to be an investment, not an expense.

A No. 32 IDEAL Boiler and 600 ft. of 38-in. AMERICAN Radiators costing the owner \$200. The boiler is a compact unit, at which price the goods can be bought of any reputable, competent dealer. The boiler includes cost of labor, pipe, valves, freight, etc., which installation is extra and varies according to climatic and other conditions.

Write us to-day size and kind of building you wish to heat—old or new—farm or city. Don't put it off—write, phone or call to-day.

AMERICAN RADIATOR COMPANY. Write to Dept. N-47. 104-108 West 42nd Street, New York. ANSWER IN EDDY WILL CASE

DEFENDANTS DENY GLOVER'S POWER TO BRING SUIT. Family Settlement and Lack of Interest in Estate Offered as Reasons Why Court Should Dismiss Action and Enjoin Further Efforts at Litigation.

CONCORD, N. H., Feb. 5. The defendants' answer to the bill of George W. Glover against Henry M. Baker, executor of the will of Mary Baker Eddy, and others for a construction of the will of Mrs. Eddy, was filed by Gen. F. N. Streeter, chief counsel for the defendants, in New Hampshire late last evening.

The answer says that "said Mother Church has more than fifty thousand members and more than twelve hundred branches widely distributed, that under the by-laws and usages of said Mother Church its spiritual and temporal affairs are managed, its property held and its business transacted by its Christian Science board of directors, the present members whereof are the defendants Chase, McLaughlin, Stewart, Dittmore and Dickey; that said board constitutes a corporation under the statutes of Massachusetts relative to religious societies, and that said statutes contain a provision that the income of the gifts, grants, bequests and devises made to or for the use of any one church shall not exceed \$2,000 a year, exclusive of the income of any personage land granted to or for the use of the ministry; that the income of the bequests and devises made to said Mother Church and its Christian Science board of directors by the will of Mary Baker G. Eddy as aforesaid will largely exceed the sum of \$5,000 a year. But said defendants deny that there is no regular system of educational and charitable work connected with said church and say that on the contrary the fundamental purpose for which said church was established and exists, namely the establishment of the doctrines of Christian Science, is essentially charitable."

The defendants aver that the residue of Mrs. Eddy's estate was left to the Christian Science denomination as a whole and not to "any one church," as referred to in the Massachusetts statute and as similarly intended by the New Hampshire statute.

They say further that the fragment of the present bill was and is "a flagrant breach of faith on the part of the plaintiff and of his said managing attorney, William E. Chandler," under the terms of the family settlement.

The defendants further say: "While the plaintiff's bill purports to be a petition for advice and direction as to the use of any one church, it does not exceed \$2,000 a year, exclusive of the income of any personage land granted to or for the use of the ministry; that the income of the bequests and devises made to said Mother Church and its Christian Science board of directors by the will of Mary Baker G. Eddy as aforesaid will largely exceed the sum of \$5,000 a year. But said defendants deny that there is no regular system of educational and charitable work connected with said church and say that on the contrary the fundamental purpose for which said church was established and exists, namely the establishment of the doctrines of Christian Science, is essentially charitable."

They say further that the fragment of the present bill was and is "a flagrant breach of faith on the part of the plaintiff and of his said managing attorney, William E. Chandler," under the terms of the family settlement.

"BUSINESS MAN" HAD JIMMY

Fell From Pocket While He Was Talking to Smiths. Detectives yesterday arrested three men who they say have been looting left buildings on the West Side for weeks.

The men arrested are Julius Robert of 205 East Thirty-third street, Henry Grossman of 294 Third street and Nicholas Pasquerella of 210 East 101st street. They are charged with attempted burglary.

Many complaints came to the police from the side streets off Sixth avenue between Fourteenth and Thirty-fourth streets. There were features about the jobs which marked them as the work of one gang. Generally the places were entered on Sunday.

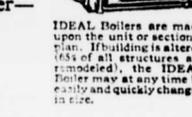

On Saturday night last Lieut. Crystal and Detectives Murray, Landers, Wing and Donahue found their men on Bond street near the Bowery. On the same night the detectives and the burglar traveled up town to Thirty-third street.

The detectives say that they saw the three men enter four buildings before going into one at 19 West Twenty-fourth street, in which they were caught. They did not stay long enough to get anything at any of the places until they reached the building in Twenty-fourth street.

After the men had spent half an hour inside the detectives went up. They met their men coming out of the cloak and suit factory of Theodore Radin on the sixth floor and stopped them. "We are business men," said one of the three. "We came down to-day to look over stock. You will find you have made a serious mistake if you arrest us."

As he tried to squeeze past the detectives a jimmy dropped from under Pasquerella's coat. He could not explain it, and the two others assured the detectives that Pasquerella was an entire stranger to them. In fact, when the detectives found several rolls of silk down and ready to be carted away.

The three prisoners and the jimmy were taken to Headquarters. The latter was said to be one of the finest ever seen there. "You could make razors out of the steel that's in it," said one of the detectives. Picture of Grossman, who is known as Gooey, the detectives say, is in the rogues' gallery.

IDEAL Boilers are made upon the unit or sectional plan. If building is altered 75% of all structures are remedied. The IDEAL Boiler may at any time be easily and quickly changed in size.

Unidentified in Hospital. An unidentified man was found apparently drunk at the Newkirk avenue station of the Brighton Beach elevated in Flatbush last night. He was taken to the Kings County Hospital, where he died within a short time. He was about 34 years old and wore a soft hat and black clothes. In that case the initials M. J. W. were on the coat was the label of a clothing store at Silverwood, Cal.

Always at Par: Our Certificates of Deposit. Certificates of Deposit issued by this Company are worth at maturity what you pay for them at issue—plus accrued interest. They are a safe, convenient, non-depreciating form of temporary investment, especially suitable for the care of funds awaiting permanent investment or accumulating to meet some future obligation.

Your funds exchanged for our certificates will earn more income than if placed on deposit subject to cheque. All deposits are safeguarded by our strength of Directorate, conservative management, banking experience and large resources.

Confer with our officers in regard to your banking or trust business.

Trustee for Personal Trusts. A mass meeting of journeymen tailors who make clothes for men to order was held yesterday at Liberty Hall, 257 East Houston street, to agitate for doing work in factories instead of taking the work home to do. The meeting was held under the auspices of Local 30 of the Journeymen Tailors Union of America. A number of new members were enrolled and it was decided to form them into a separate local, the two unions to work together in the agitation for factory work.
